Language, as described above, is species-specific to human beings. Other members of the animal kingdom have the ability to communicate, through vocal noises or by other means, but the most important single

feature characterizing human language (that is, every individual language), against every known mode of animal communication, is its infinite productivity and creativity.

struct (C programming language) - Wikipedia

An Inspector Calls is a play - this has an impact on its language and structure. The dialogue is believable and fast moving and the play is structured so that each act grabs the audience's attention.

Observations on What Is Language

Computers "talk" through the use of programming language. Like human language, computer language is a system of grammar, syntax, and other rules that allow humans to communicate with their PCs, tablets, and smartphones, but also allows computers to communicate with other computers. As artificial intelligence continues to advance to a point where computers can communicate with each other

The textbook approach to sentence structure is "learn a big long list of boring rules." For example, here are some German sentence structure rules that a teacher might have you memorise: Basic word order is subject, verb, object

What is Unified Modeling Language (UML)?

In the C++ language, Like its C counterpart, the struct data type in C# (Structure in Visual Basic .NET) is similar to a class. The biggest difference between a struct and a class in these languages is that when a struct is passed as an argument to a function, any modifications to the struct in that function will not be reflected in the original variable (unless pass-by-reference is used

WALS Online

Under the strictest definition, an argot is a proper language with its own grammatical system. But such complete secret languages are rare because the speakers usually have some public language in common, on which the argot is largely based. Such argots are lexically divergent forms of a particular language, with a part of its vocabulary replaced by words unknown to the larger public; argot
